

ENABLE THE FUTURE OF WORK

DR. KAUSHIK RAM

SCIENCE AT WORK

PRESENTED TO: VISIONARY BUSINESSES

BY: DR. KAUSHIK RAM

As we accelerate into the next 20-30 years, we discover new ways that challenge the uneconomical rules of the past. We face demands that were not there before. We equip ourselves with evidence based neuroscience to ensure our cognitive fitness is responsive to the demands of the future.

HOW I CAN HELP

LET US HELP YOU UNCOVER YOUR:

INNOVATION

AUTHENTICITY

INTUITION

DISRUPTION

The issue identified for businesses and organisation suffering from **ageing culture and infrastructure**, is to align with inspiring new ways to engage and motivate their people, with **sustainable day-to-day practices** and mandate **personal skill updates**.

Our focus is four-fold.

I. Innovation

Realtime cognitive flexibility to thrive under pressure.

There are many off the shelf solutions however to **deeply inspire**, innovation can not simply be about finding solutions. Sometimes the **best solutions come to us when we step away from the problem.**

II. Authenticity

Communicate to move and inspire.

We know that the most vital way to communicate is through body language. So why quarrel with words? **To lift the lid on the communication blocks**, I will demystify the 3 myths about communication. In this talk we will learn how to communicate in a world where no one speaks up, because nobody else did.

III. Intuition

Gain the elusive advantage in business and in life.

Intuition is often buried beneath what we think we know. In this talk I **reveal the subconscious** and help you understand why some of our best ideas come when we least expect it.

IV. Disruption

Learn to respond incredibly fast and unfollow limiting rules.

The stress on our nervous system to **a constantly changing ecosystem can in itself be a financial burden.** Are your struggling to keep up with the new rules or are you equipped with the confidence rewrite many of your own?

CASE STUDIES

Sedentarism and long hours in front of a computer is limiting our ability to operate effectively. Combining a deep understanding of how the brain works and how the body operates from a nervous system perspective, Dr. Ram was able to engage our team at About My Brain in a fun and informative manner.

Silvia Damiano | CEO | About My Brain Institute

Highly Recommended! Dr. Ram provided stress management and effective movement practices that couldn't have been any better for myself and our staffs wellbeing.

Dwayne Marten's | CEO | Amazonia

Clients in collaboration with the About My Brain Institute

About:

Dr. Kaushik Ram is a world-leading neuroscientist, internationally published author and advocate for brain health.

His proactive talks grip you into a heartfelt narrative. He has the incredible gift of sharing from a state of deep wisdom. His has captivated audience in fast moving companies such as Microsoft and Australian Securities

Exchange (ASX) and enthralled audiences at VIVID ideas, VIVID Sydney festival 3 years in a row.

The precision of science was not enough for Dr. Ram to meet his audience eye to eye. In order to touch the heart of his audience and provoke action, he mixes science with his personal story of adventure, heartbreak and courage. The eloquence of his talk is a masterful mix of facts and a heartwarming narratives.

In his book: Hidden World - The Inside Story of the Soul (Distributed by Pan Macmillan, 2017) he shares his life's work revealing the secrets of the nervous system through stories of overcoming challenges while providing unique insights and profound breakthroughs.

Dr. Ram has dedicated more than a decade researching and restoring the brain and nervous system to health and harmony. Early in Dr. Ram's career, he become aware of the duplicity of information and made a commitment, not to simply share information but to show people - how. Through sharing anecdotes of adventure, from living with tribes in the Highlands of Papua New Guinea to writing his book while living in an exquisite cave in Thailand, he lures his audience into a powerful world of passion and possibility.

Featured in multiple documentaries on science and human potential, Dr. Ram is the upcoming voice of reassuring hope for the generations to come.
