

**NEUROSCIENCE +
CREATIVE DEVELOPMENT
UNLOCK YOUR HUMAN
POTENTIAL**

TAKING YOU BEYOND PERSONAL DEVELOPMENT

RECONNECTING YOU WITH YOUR INNATE POWER

The nature of work is changing. Gone are the days of control and knowledge. We are entering the age of imagination where ideas = power. Human capital is your biggest asset. You already hold everything you need to future-proof your organisation. We have the tools and techniques for you to make it happen.

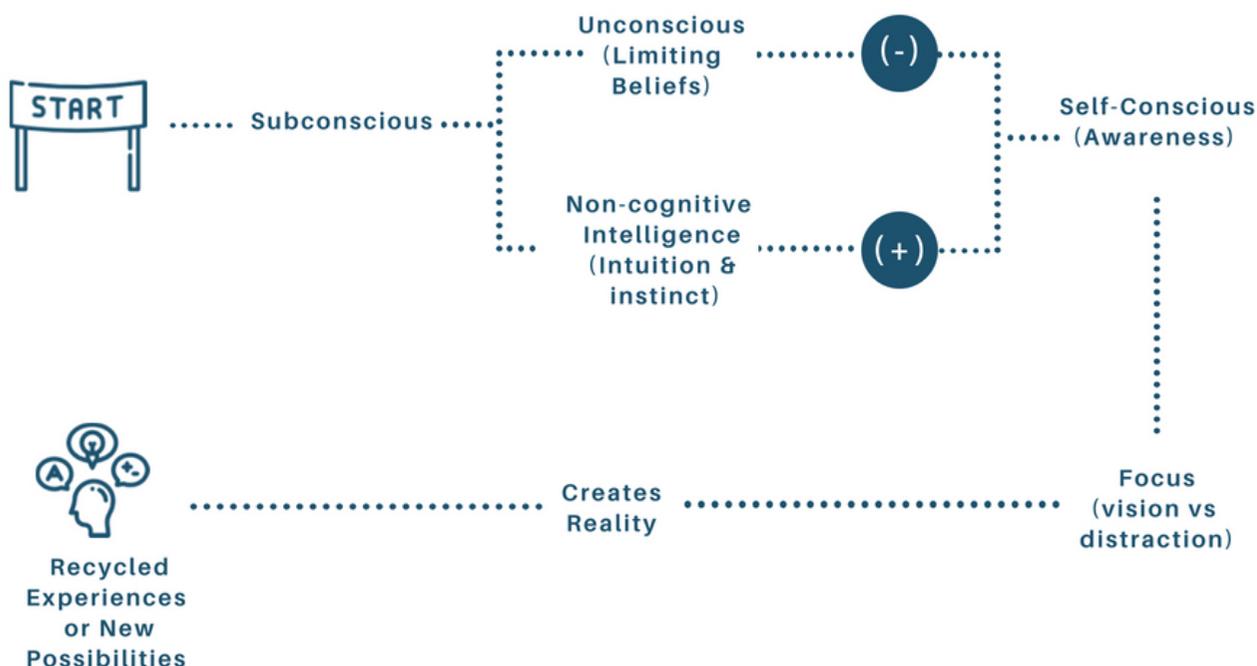

LET US HELP YOU THRIVE IN DIGITAL DISRUPTION

Believe it or not, work can actually be play. Playing with ideas, imagination, and creativity. Here's where your best work gets done. Your nervous system is relaxed and you allow your ideas to flourish. Then it doesn't feel like work at all, you are in flow, saving time, stress and energy. We teach you how to harness the power of your natural abilities through evidence based neuroscience that is responsive to the agile economy of today. This is not your standard run of the mill training. We revolutionise your nervous system to create with heart driven purpose, where meaningful learning is inevitable.

- **Manage stress, anxiety and overwhelm**
- **Have more time in your day**
- **Engage with more meaning, empathy and authenticity**
- **Break down ways of thinking to generate new and creative solutions**
- **Enhance personal and interactive relationships between managers, staff and teams**
- **Moderate internal states to respond effectively and proactively to stress**
- **Access high levels of creativity and flow**
- **Improve workplace motivation**
- **Open lines of communication to build trust and rapport**
- **Learn to interpret intuition for timely and powerful decision-making**

Levels of Intelligence

Kaushik Ram, PhD and Kirsty Carr, BA Hons

HARNESS THE NATURAL ABILITIES OF YOUR PEOPLE

Be completely engaged with what you are doing in the here and now. Don't be left behind by digital disruption. Align with inspiring new ways to engage and motivate your people, with [unique creativity](#) and [nervous system reprogramming](#).

Our focus is three-fold.

EMOTIONAL INTELLIGENCE

Practical tools to understand the mind and shift focus to reach next level outcomes.

See how you limit yourself through linear thinking. A focus on self-awareness and how your personal experiences shape how you work. This course identifies the belief structures and perceptions that skew your views to create conflict and struggle. It enhances collaboration and appreciation for yourself and your colleagues. The result - productive relationships based on empathy and authenticity.

CREATIVE DEVELOPMENT

Gain the elusive advantage in business and in life.

Intuition is often buried beneath what you think you know. Reconnect with your creative power and learn how to interpret your intuition, and enter flow states. Learn how to think outside of the box and rely on your natural abilities to succeed. All the while building trust, confidence, unity and authentic expression. The result - increased productivity, decisive action and enjoyment.

ADVANCED COMMUNICATION

Communicate to move and inspire.

Unpack communication to understand how it can be an even more powerful tool for business, relationships, and getting the outcomes you desire. Learn how to negotiate and influence to get what you want, without fail. Understand yourself and others, overwrite stress responses and create empathy and connection. The result - a supportive culture that promotes a free flow of creative and innovative ideas, setting you ahead of the game.

MEET THE TEAM

DR KAUSHIK RAM

PhD Neuroimaging |
MSc Neuroscience |
B.Sc Animal Behaviour
and Zoology

Dr. Kaushik Ram works with forward thinking co-operations, government departments and leading education providers to unlock their natural abilities. He pioneers research into the nervous system and leads ground-breaking talks in Australia and globally.

As one of the world's elite thinkers in managing stress and fear in the nervous system, he advises high performing individuals on how to trust their natural abilities and create influence.

Founding Director of the Institute for Implicit Intelligence, he specialises in non-cognitive intelligence such as intuition, instinct and various elevated brain states such as hypnotic, trance-like and flow states. He is the acclaimed author of Hidden World. In this book, he tackles the critical issue of how the evolution of humankind has been hijacked by the brain and as a result, humans have lost the non-cognitive intelligence of their own bodies.

KIRSTY CARR

BA Hons Population
Health | Creative
Development Mastery |
| Diploma of NLP | IAP2
Certified

Kirsty has a unique background spanning Government, not-for-profit and private sectors in Australia and internationally. Traditionally trained in health and behavioural science, she went on to become a high-level creator and innovator in the realms of public health, diversity and inclusion, and engagement.

She is a master facilitator and trainer, having led several high-profile projects and events. In 2017, she founded her own business specialising in creative development and breakthrough strategy. The key focus being connecting people and organisations to their unique creativity and natural abilities to reach new levels of success.

She has empowered hundreds through her distinctive teaching methods, including accessing intuition, heightening self-awareness and creatively overcoming psychological limitations. This, coupled with a raw and real approach and incredible ability to relate with people makes her a powerful teacher, coach and leader in her field.

SAM ELDERFIELD

BComm Marketing and
Human Resource
Management

Sam has been building software engineering teams for the past 5 years. Prior to recruitment he was involved in SAAS sales and training and development. It was during this time as a trainer he developed a keen interest in people development. He also discovered his passion was finding flow a feeling that he has been chasing his whole life. On this journey he discovered numerous methods of hacking flow to increase creativity, productivity and just general overall fun in work and life. Sam has used his natural networking ability to bring this knowledge to the leadership communities that he knows. Being incredibly passionate about getting the most out of every moment he is a big fan of breaking down our vulnerabilities, surrendering to what is happening here and now, and inspiring others to do the same. Sam also holds bachelors degree in human resource management and marketing.
